

A large graphic on the left side of the page, consisting of a dark blue circle with a white rectangular box in the center containing the word "Carpathia" in purple. The dark blue circle is surrounded by a light blue, brush-stroke-like border.

Carpathia

UTComp Licensee: Carpathia Consulting

Our South Africa-based Licensee is Carpathia Consulting offering our patented UltraAnalytix™ inspection system for fiber-reinforced plastic (FRP) and other composite materials.

Carpathia Consulting provides specialized expertise and technical support for FRP/GRP composite materials, spanning design, manufacturing, installation and service, and “cradle to grave” inspection for clients in South Africa and abroad. Company principal Anca Ghetea has a chemical engineering background and more than 20 years of composites industry experience.

The data-driven UltraAnalytix™ evaluation method sets a new standard for composite reliability and proactive service-life forecasting while reducing operating downtime and confined space entry, she says.

Anca recommends clients schedule regular inspections to build up a full dossier of all composite industrial equipment for a robust asset management system and life-cycle planning.

“We are happy to have Carpathia Consulting as licensee – offering our safe, fast and reliable UltraAnalytix™ evaluation of composite industrial assets in South Africa,” said Jo Anne Watton, CEO of UTComp. “UltraAnalytix™ is the only proven non-destructive, non-intrusive inspection method for composite materials, serving a wide range of industries all around the globe.”

If you want FRP asset peace of mind, contact the exceptional team of Carpathia Consulting for an UltraAnalytix™ inspection.
